

Thanks to Keep Onslow Beautiful, Trinity United Methodist Church, Sprint, the Robert L Franck family, and all other organizations and folks present who made this occasion possible.

I am overwhelmed by the honor you have bestowed upon me.

This award does not belong to me alone. What we have accomplished is due to all of you, Stewards of The White Oak River Basin, who have participated in making our roads, rivers and forests cleaner.

We hope every citizen living , working or playing in our little river basin will help us to keep it clean.

It is really very simple. Just don't litter. If all of our citizens would make this pledge to themselves and live up to it there soon would be no litter for anyone to pick up.

This is so very important now. It would save our State 10,000,000 dollars. In addition it would relieve volunteers who spend their time on picking up trash so they could volunteer for other necessary and constructive activity needed now.

Stewards of The White Oak River Basin
Elmer, The White Oak River Trash Man!!
