

# Stewards of the White Oak River Basin

2003-05-16 NEW RIVER

PAGE 1 OF 1

We declare the New River Onslow County Paddle Trail from Richlands to Jacksonville to be clear of all litter and trash, (man made stuff). This is due to the efforts of Keep Onslow Beautiful, The New River Foundation and Stewards of The White Oak River Basin. Now we appeal to the general public to keep it that way.

Please, DON'T LITTER.

Pic #698 is of a beautiful flower along the river. Wish I could tell you the name.

#699 is of one half of our haul of litter for the day. Mac, could you pick this up for us? The other half we left at the Gum Branch outfall. Dale said he would pick that up.

Thank you, Dale for your efforts and write-up. You told it in a most enjoyable fashion.

Dale forgot to tell you about the six little ducks that were sitting on a log and scooted down the river ahead of us. They couldn't fly, but they sure could run on the water. They led us for a long way along the back side of that island opposite the creek on which #3 access is located.

What is the name of that island? What is the name of that creek?
